Futura
ABCDEFGHIJKLMNOPQRSTUVWXYZ
Futura was designed by Paul Renner way back in 1927 that inspired many typeface creators to create their own font designs too. This font is one of the oldest yet still classic fonts that Renner has created along with many other beautiful font collections. Futura is a geometric sans-serif typeface designed by Paul Renner and released in 1927. ... It was developed as a typeface by the Bauer Type Foundry, in competition with Ludwig & Mayer's seminal Erbar typeface of 1926. Futura has an appearance of efficiency and forwardness

Can't tell you how proud I am of you for what you have done over last 12 years every day. You blow me away at what you can accomplish when you apply yourself. There is no one that can stop you but you. Watching you grow up into a young adult is an amazing thing, even though you act older than your years. I don't know what the future has in store for you but just remember you can do whatever your heart desires, as long as you give it 100% effort. I will be there to support you in any way I can. All the hard work you have done is paying off because you're graduating high school and talking about being a teacher or auto shop owner. All of which is probable because of your hard work and dedication. You are the best role model for people to follow especially when the road in life is hard and puts tons of obstacles in your path. But these obstacles never stopped you or prevent you from succeeding to your goal of graduating high school and moving on to college or out in life. You should be proud of yourself and all the work and struggles along the way have paid off. Again, I am proud of you and all your success and can't wait to see what the future holds in store for you.
I love you,
Dad

In October, California's Governor signs a bill becoming the first state in the nation to pass legislation that prohibits public schools from starting too early. NOTRE DAME DESTRUCTION

A mammoth blaze tears through the Notre Dame Cathedral in Paris, nearly destroying the 850-year-old landmark. The church's wooden latticework roof and iconic spire collapse, but many of the valuable cultural treasures avoid damage with some kept safe at the Louvre Museum. French President Emmanuel Macron would like the Notre Dame Cathedral to be rebuilt in five years, but restoration experts believe it could take 10 to 15 years. More than $700 million is collected in donations for the reconstruction, including $100,000 from the University of Notre Dame in Indiana.

GLOBAL FIRES

Massive wildfires rage on two continents: in Brazil's Amazon rainforest and across Australia. This year the Amazon rainforest experiences the highest number of fires since Brazil's National Institute for Space Research began keeping records in 2013, which burn 2.2 million acres. The Australian bushfires primarily affect the state of New South Wales and 12 million acres are burned as of January 2020. New South Wales is home to Australia's most populous city, Sydney.

LOST CONTINENTS

Douwe van Hinsbergen – a geologist at Utrecht University in the Netherlands – and his colleagues discover a lost continent known as Greater Adria while studying rocks beneath the Mediterranean Sea. Approximately 140 million years ago, Greater Adria and southern Europe collided, burying Greater Adria in the process. Most of the continent sank beneath what is now Italy, Greece and the Baltics. Analysis of ancient rocks suggests that almost all of Earth's earliest continents might have disappeared, leaving traces behind like certain rocks found on the Alps.

PLANT POPULARITY

Fast food restaurant chains introduce more meatless options than ever. McDonald's launches the P.L.T. (Plant. Lettuce. Toy manufacturers are working to make their games more accessible. Mattel releases a Braille version of its UNO card game, with game cards incorporating Braille on both sides of each card.
